

Hand Scraping Process

*Standard light scraping,
Small pillow on edges of boards,
No pillowing on ends of boards.*

These options can be added to the standard scraping:

*Heavy scraping, defined
By large undulation in face and
Larger pillowing on edges only.*

*End pillowing, matching
The pillowing on the edges at the
Ends of the boards.*

*Chain drop, 25% of the
Boards will be hit with chain to
Give the effect of spiked heel shoes.*

*Machined Bevel, 1/8" or less
On all sides of board, no pillowing*
